## Summary:

A highly motivated and detail-oriented professional with a background in Mechanical Engineering and hands-on experience in SAP MM/EWM as 2.6 years, Front-End Development, and Software Testing as 8 months. Seeking to leverage my skills in SAP, software testing, and web development to contribute effectively to a forward-thinking organization. Eager to learn, grow, and deliver quality results in a dynamic environment.

## Technical Skills: -

- **UI/UX & Design:** Figma, Adobe XD, Responsive Design, Material UI

- **Front-End Technologies:** HTML5, CSS3, JavaScript (ES6+), TypeScript

- **Frameworks & Libraries:** React.js, Angular, Bootstrap, Tailwind CSS

- **Build Tools & Task Runners:** Webpack, Babel, NPM, Yarn

- **Testing:** Cypress, React Testing Library

- **Manual Testing:** Test Case Design, Execution

- **Test Automation:** Selenium WebDriver, Cucumber, JUnit, TestNG, Maven

- **API Testing**: Postman, REST Assured

- **Project Management:** Jira, Agile, Scrum

- **Testing Tools**: Selenium WebDriver, Cucumber, JUnit, Postman

- **Frameworks:** React.js, Spring Boot

- **Database Languages:** MySQL, SQL

- **Version Control:** Git, GitHub, GitLab

## SAP MM & EWM Skills: -

- Procurement Handling:
  Experience in creating and managing Purchase Orders, Purchase Requisitions, and Contracts.
- Vendor Management:
  Hands-on in maintaining vendor master data and evaluating vendor performance.
- Material Master Data:
  Skilled in configuring material types, views, and ensuring data accuracy across modules.
- Inventory Management:
  Managed stock levels, stock transfers, and performed physical inventory processes.

- Goods Movement:
  Proficient in handling goods receipt (GR), goods issue (GI), and transfer postings.
- Invoice Verification:
  Experience with verifying vendor invoices and resolving discrepancies.
- Warehouse Operations (EWM):
  Worked on managing warehouse tasks, stock removal strategies, and bin management.
- Stock Monitoring (EWM):
  Monitored real-time stock levels and ensured correct storage bin placement.
- Integration Skills:
  Integrated MM processes with SD (Sales) and FI (Finance) for smooth business flow.
- Support & Issue Resolution:
  Provided user support, resolved errors in procurement and warehouse activities.

---

## Professional Experience:

- Experience of 2.6 years in **SAP MM & EWM while working at Techno solution** on a contract basis (2019-2021).

- Intern of 8 months in **Frontend Development and Testing at T Commercialization Global Private Limited** (2023-2024).

---

- **Project Name:** Hospital Management
  **Client:** Daejeon, Korea
  **Duration:** Jan 2024 – Dec 2024
  **Role:** Frontend Developer
  **Team Size:** 3 members
  **Environment:**

- **MySQL:** Used for managing and storing patient records, appointments, billing, and inventory data, ensuring data integrity and efficient retrieval.

- **Jira:** Utilized for tracking project progress, managing tasks, and reporting bugs, facilitating effective communication and collaboration within the team.

- **React:** Leveraged for building dynamic and responsive user interfaces, enhancing the overall user experience of the application.

**Key Responsibilities:**

- Designed and developed intuitive frontend components using React.js to manage patient information, appointments, and staff schedules, significantly improving user engagement and operational workflows.

- Collaborated with backend developers to integrate RESTful APIs for seamless data handling, ensuring real-time updates and accurate information retrieval.

- Implemented responsive design principles to create a user-friendly interface that functions effectively across mobile and desktop devices, enhancing accessibility for all users.

- Optimized application performance through code-splitting and lazy loading techniques, resulting in faster load times and improved user satisfaction.

- Conducted usability testing sessions to gather user feedback, iteratively refining the interface and addressing usability issues to enhance overall user experience.

- Participated in code reviews, providing constructive feedback to team members to uphold code quality and adhere to best practices.

- Collaborated closely with the QA team to facilitate thorough testing of the application, promptly addressing any identified functionality issues.

- Actively engaged in Agile ceremonies, including sprint planning, daily stand-ups, and retrospectives, contributing to continuous process improvements and team cohesion.

---

## Project: Support&Developement

**Job Responsibility:** SAP MM Consultant
**Company:** Techno Solution PVT
**Duration:** Sept 2019 to 2021 march
**Responsibilities:**

- Process Analysis and Mapping: Analysed SD processes to identify bottlenecks, employing mapping techniques to visualize workflows and target specific areas for improvement.

- Workflow Optimization: Designed and implemented optimized workflows for order management, pricing, and delivery, automating tasks to reduce lead times and improve efficiency.

- Integration with Other Modules: Collaborated with cross-functional teams to ensure seamless integration of the SD module with MM and EWM, enhancing overall data flow and operational coherence.

- Customer Relationship Management (CRM): Improved tracking of customer interactions, resulting in increased satisfaction and loyalty through better service delivery.

- Data Analysis and Reporting: Developed analytical tools to assess sales trends and fulfilment rates, providing insights that informed strategic business decisions.

- User Training and Change Management: Conducted training sessions for end-users to facilitate the adoption of new processes and ensure a smooth transition.

- Performance Metrics and Continuous Improvement: Established key performance indicators (KPIs) to monitor effectiveness, implementing ongoing enhancements based on performance data.

- Collaboration with IT and Support Teams: Worked closely with IT and support teams to maintain system stability and ensure prompt resolution of technical issues.

---

## Qualifications: -

- B. Tech in Mechanical Engineering, SaiSpurthi Institute of Technology & Science, JNTU, Hyderabad, 2016.

**Place: -**Hyderabad.
